IN TWO SECTIONS—SECTION TWO

Index to Volume Nineteen of The Paper Industry and Paper World

April, 1938—March, 1939

Page numbers in this index are preceded by numbers of the issues. April, 1938, is No. 1 and March, 1939, is No. 12

A

Acoustical board from cornstalk pulp.. 5, 547
Adkins, Homer, (See Convention Papers, Abstracted)
Aging, resistance of paper to natural..11, 1157
Agitation, new development in stock chest 6, 639
Ahlm, C. E., (See Convention Papers, Abstracted)
Alcohol, octyl, an anti-foaming agent..11, 1170
Alum, dissolved vs. dry..... 1, 39
Anderson, L. C., (See Convention Papers, Abstracted)
Archives, preserving paper records in the national 5, 544
Arnold, L. E., Acoustical board from cornstalk pulp 5, 547
Low temperature drying of cornstalk insulating board..... 1, 48
Spraying insulating board with refined pulp 7, 755
Aronovsky, S. I., (See Convention Papers, Abstracted)
Arthur, Guy, (See Convention Papers, Abstracted)
Association Meetings
A Changing world sees a big show 12, 1268
American Chemical Society meeting 6, 686
A. P. P. A. Annual meeting sounds note of optimism.....12, 1274
Canadian Technical men have profitable meeting 4, 434
Canadian Technical men hold annual meeting 11, 1180
Divisional Groups meet and elect officers 12, 1288
Fun and knowledge mixed well at TAPPI convention 6, 643
Michigan superintendents and Kalamazoo TAPPI get together.... 10, 1096
Sales Ethics Stressed at Salesmen's Association 12, 1286
Safety's silver anniversary (N.S.C.) 8, 855
TAPPI meets, awards medal at luncheon 12, 1282
Attitudes, profits in 9, 953

B

Bauer, J. V., (See Convention Papers, Abstracted)
Beach, R. L., (See Convention Papers, Abstracted)
Beating equipment efficiency, evaluating 4, 412
Beck, J. B., (See Convention Papers, Abstracted)
Belting, Cleaning 1, 67
Betz, Dr. L. D., (See Convention Papers, Abstracted)
Bienvenu, G. J., (See Convention Papers, Abstracted)
Bingham, R. T., (See Convention Papers, Abstracted)
Book papers, permanence for..... 6, 636
Booth, L. M., (See Convention Papers, Abstracted)
Brabender, G. J., (See Convention Papers, Abstracted)
Bratton, Samuel M., (See Convention Papers, Abstracted)
Braun, F. W., (See Convention Papers, Abstracted)
Brauns, F. E., (See Convention Papers, Abstracted)
Bray, Mark W., (See Convention Papers, Abstracted)
British Mills, two old..... 9, 959
Brookbank, Jr., E. B., (See Convention Papers, Abstracted)
Brown, J. D., (See Convention Papers, Abstracted)
Bruning, T. E., Spending for equipment and supplies 3, 296
Brunswick Pulp and Paper Co., (description) 2, 174
Buckingham, Stephen A., Measuring consistency with stroboscopic centrifuge 6, 629
Business, new horizons for..... 5, 539

C

Campbell, Dr. W. Boyd, (See Prof. Otto Maas) (See Con. Papers, Abs.)
Carlson, Harry, (See Convention Papers, Abstracted)
Carpenter, Charles, (See Convention Papers, Abstracted)
Castor oil plant may provide cheap cellulose 3, 308
Caulfield, J. G. L., (See Convention Papers, Abstracted)
Cellulose degradation during transparent sheet formation 12, 1340
Cellulose in the cinema..... 3, 291
Cellulose Research, 1933-37, a resume
Part I—Molecular weight of cellulose 4, 413
Part II—Miscellaneous investigations 5, 540
Part III—Cellulose modified by hydrolysis and oxidation..... 9, 956
Centrifugal pump and its maintenance, the,
Part I—Design and efficiency.....10, 1054
Part II—Construction, installation and maintenance 11, 1164
Centrifuge, measuring consistency with stroboscopic 6, 629
Chant, D. B., (See Convention Papers, Abstracted)
Chesapeake-Camp Corporation, new mill of the..... 1, 52
Chidester, G. H., (See Convention Papers, Abstracted)
Chlorination of Asplund coniferous pulp 12, 1336
Cigarette mill for South (Ecusta Paper Corp.) 3, 258
Cinema, cellulose in the..... 3, 291
Cleaning belting 1, 67
Clifton Paperboard Company, (mill story) 10, 1071
Codwise, Philip W., (See Convention Papers, Abstracted)
College of Forestry, New York State, pulp and paper laboratory.....10, 1061
Consistence slide rule, a..... 1, 42
Consistency measured with stroboscopic centrifuge 6, 629
Container Corporation of America, (description of Fernandina plant)..... 2, 159

Convention Papers Abstracted:
Absorption of SO_2 in water, Charles E. Reiley 6, 650
Adhesives for corrugating, J. V. Bauer.12, 1304
Alkaline wood pulp processes, chemistry of the, Sidney L. Schwarz and Mark W. Bray..... 6, 654
Alsifilm, E. A. Hauser.....12, 1304
Art of trimming paper, the development of the, Howard M. Hubbard.. 4, 444
Bell drying system, L. C. Anderson....11, 1193
Box board, puncture testing of, R. L. Beach 12, 1306
Cellulose-moisture phenomena, studies in, Prof. Otto Maas and Dr. W. Boyd Campbell 11, 1193
Cellulosic materials, cation exchange in, D. A. McLean and L. A. Wooten.. 6, 686
Chemical stack losses and their recovery in the soda process, Ray P. Whitney and J. Edward Vivian.....12, 1320
Coating and drying, developments in, H. G. Rappolt.....12, 1320
Conductivity instrument and method for analyzing kraft liquor, a new, E. R. Whittemore, S. I. Aronovsky and D. F. J. Lynch..... 5, 650
Continuous grade costing in a paper mill, Donald Ross-Ross..... 4, 438
Controlling production, budgeting demand for the purpose of, Louis T. Stevenson 12, 1310
Cylinder machine head boxes, P. H. Goldsmith 12, 1312
Designing paper mill machinery for safety and production, M. Walter Dundore 8, 878
Dirt from pulp and paper, progress in the removal of, H. Freeman and C. H. Ekelton 11, 1192
Douglas fir, sulphite pulping of, E. B. Brookbank, Jr. 6, 656
Dry coating of paper, J. C. Pullman....12, 1318
Efficiency in papermaking, B. L. Kassing 4, 438
Electrical hazards in the paper industry, R. G. McGivney..... 8, 868
Eliminating hazards in boxboard conversion, G. J. Bienvenu..... 8, 876
Factors affecting lined board brightness, W. R. Willets, R. T. Bingham and L. H. Eriksen.....12, 1328
Factors influencing the free discharge of stock from sulphite digesters, W. H. Kraske.....12, 1314
Fiber membranes, existence and nature of, H. F. Lewis and F. E. Brauns.....12, 1304
First aid instruction to workers, R. W. Croucher .....
Flocculation of papermaking fibers, an investigation of the, J. C. Wollwage .....

Folding boxboards, creasing and bending of, J. H. Halliday and R. W. K. Ulm 12, 1306
Folding board, requirements of, Dr. W. Boyd Campbell 11, 1194
Forced circulation and indirect heating in sulphite digesters, operating experiences with, D. C. Porter 12, 1314
Formation of paper, Harry Williamson. 4, 462
Fundamental chemistry of alum and its application to paper manufacture, the, Lewis B. Miller 12, 1326

Groundwood secondary rejects using a continuous batch system, the refining of, Walter W. Holland 11, 1195

Heat and SO_2 gas in the sulphite pulp industry with or without heat exchangers, recovery of, C. E. Rosenblad 4, 442
Heat exchanger performance, data on, H. A. Dubois and B. F. Smith 8, 862
High pressure steam for paper mill power plants, economics of, A. Kolflat 6, 664
Human factor in the paper industry, the, Guy Arthur 12, 1308
Hydrafiner for beating, the, J. D. Haskell 4, 446
Hydration upon the rate of drying of paper sheets, the effects of, J. G. L. Caulfield, L. C. Jeness and H. G. Macklem 12, 1312

Indirect digester heating survey, Pell W. Foster 12, 1314
Indirect method of sulphite pulping, controls of the, A. H. Stanton 12, 1314
Industrial health problems, control of, Col. Thomas Dobbins 8, 873
Influence of humidity on changes in diameter and length of sulphite fibers, J. P. Weidner 6, 660
Instrumentation, the fundamentals of.. 12, 1304
Investigations concerning the use of swamp black gum sulphate pulps for high grade papers, a preliminary report of, Charles Carpenter and G. A. Ritter 12, 1310

Lignin investigations, Elwin E. Harris and Homer Adkins 6, 656
Lignin investigation, Professor Harold Hibbert 11, 1192

Mill operation, use of costs in the, J. F. Hagenauer 12, 1308
Modern finishing machinery development, some examples of, Herbert Nowell 4, 446
Modern high speed news operation, the groundwood mill and its relation to, J. D. Brown 11, 1195
Modern methods of coating papers, a comparison of the, Paul DeGuehery .. 4, 442
Modern wage incentives, the development of, Alexander Strong 4, 440
Moisture in fine papers made from wood pulp, J. B. Beck 11, 1193
More rational method of stating hydrogen-ion concentration, a, L. M. Booth. 12, 1324

New surface active chemicals, B. G. Wilkes and H. F. Robertson 12, 1328
New type Black-Clawson wet end, operating results of the, L. E. Weiser 4, 442
Nineteen thirty-seven-thirty-eight accident experience in the paper and pulp section, N.S.C., review of the, F. W. Braun 8, 881

Odors generated in the manufacture of kraft paper, a study of the, H. C. Dudley and J. M. Dallavalle 12, 1320
Operation of an Adka save-all, the, E. N. Poor 12, 1324
Optical scattering and absorption coefficients of dyed handsheets and the application of the I.C.I. system of color specification to these handsheets, an investigation of the, W. J. Foote 6, 660
Organic colloids in the production of pure steam, use of, Dr. L. D. Betz .. 11, 1192
Ortho-krome process of coating paper, the, Albert B. Hurley 12, 1324

Paper machine coating processes, Peter J. Massey 12, 1322
Paper machines and equipment, maintenance of, Grover Keeth 4, 448
Paper in the plastics industry, use of, Harry Carlson 12, 1322
Paper machines, recent improvements in . . . a symposium . . . Samuel M. Bratton, O. C. Cordes, C. E. Macklem, G. A. Peterson and S. A. Staege 4, 448
Particle size distribution as it affects properties of coating clays, S. C. Lyons 4, 444
Physical examinations from the viewpoint of the personnel director, advantages of, Louis H. Frechtling 8, 878
Pliolite, a coating material for paper, H. R. Thies 12, 1318
Points to be considered in the operation of a lime recovery plant, M. B. Mount 12, 1313
Printer's paper problems, a, Ollie Watson 4, 450
Printing quality in the paper and board mill, the control of, Dr. G. L. Larocque 4, 450
Printing quality of board, effect of starch on the, A. Yracla 4, 442
Processing equipment materials in kraft mills, James A. Lee 12, 1312
Psychology of dealing with employees, Harold S. Hulbert, M. D. 8, 880

Removal of the constituents of wood in the alkaline cooking process, fundamental study of the, F. E. Brauns and W. S. Grimes 6, 658

Safe practices in handling pulpwood mill yards, boats and railway cars, L. B. Shaffrey 8, 874
Safety, an operating problem, Agner B. Hansen 8, 868
Safety kinks, D. B. Chant 8, 880
Safety when the mill is down, J. A. Limpert 8, 870
Sanitary quality in fabricated paper, J. R. Sandborn 12, 1304
Scheduling paper mill operations, Charles F. Moreau 12, 1310
Screening pulp fibers, Nelson M. Knight 4, 448
Sheet material, determining water vapor permeability of, G. L. Brabender 12, 1328
Slime troubles in a newsprint mill, John Wing 11, 1196
Sodium aluminate in papermaking, T. W. Westlake 11, 1192
Sodium salts in pulping shortleaf pine with neutral sodium sulphite liquor, effect of the addition of, G. H. Chidester and J. N. McGovern 6, 654
Standards in their relation to production control, Sanford E. Thompson .. 12, 1310
Steam generation for paper mills, M. H. Kuhner 6, 684
Suction box covers, W. B. Scott 11, 1194
Sulphate pulping of Douglas fir, sulphidity effect in the, Mark W. Bray, J. Stanley Martin and S. L. Schwartz. 12, 1322
Sulphite acid introduced by the use of chip packers, problems in the making of, E. L. Lamb 12, 1314
Sulphite mills, chipper operations in, Vance P. Edwardes 12, 1314
Sulphite pulps from heartwood and sapwood of several growth types of western hemlock, J. N. McGovern and G. H. Chidester 6, 656
Sulphite pulps from western hemlocks, effect of age and growth rate on, G. H. Chidester and J. N. McGovern .. 6, 654
Sulphite pulps from the top, middle and butt logs of western hemlock of four growths types, J. N. McGovern and G. H. Chidester 6, 656
Sveen-Pederson save all, the commercial operation of, Ward D. Harrison. 12, 1326

Thermoplastic coatings, a new approach to decorative paper, J. H. Long 12, 1318
Thioglycolic acid and spruce lignin, the reaction between, C. E. Ahlm and F. E. Brauns 8, 886
Tissue papermaking machines, E. A. Ellis 4, 454

Variables on high speed newsprint operation, the control of, A. J. Edwards 4, 446
Various pre-extractions on the lignin determination of wood, effect of, Elwin E. Harris and R. L. Mitchell .. 6, 686

Washing of bleached sulphite and the introduction of a new method for its control, the, Herbert Prelinger 6, 652
Water softening—carbonaceous zeolite, latest development in, Ray Riley 6, 652
Wetting of paper and paperboard, the determination of, Philip W. Codwise. 12, 1326
Wood for acid pulping, suitability of, H. Green and F. H. Yorston 11, 1194
Cook, H. D., Evaluating beating equipment efficiency 4, 412
